EXPERIENCE

Self Employed, Full Stack Developer & UX Designer

JANUARY 2005–CURRENT

I do full stack web development, ux design, art direction, and videography as a contractor. I create practical web applications, user interfaces, and develop online brands. I've worked with over 50 clients in the past 11 years.

Society of Petroleum Engineers, Web & Graphic Designer

FEBRUARY 2013–MAY 2016

I collaborated with a global marketing team spread across 6 continents to promote dozens of trade shows. My team of 7 designed promotional websites (*SVN, ExpressionEngine, OneHippo CMS*), touchscreen kiosks (*Wordpress*), email campaigns (*HTML5, Marketo*), banner ads, and direct mail. We orchestrated a company re-brand, and enforced it with standards manuals and videos.

KEDAR Information Technologies, Web & Graphic Designer

MAY 2010–AUGUST 2012

I designed and helped program the UI for the IT financial management dashboard app, Cost Optimization Service™ (*LAMP, CodeIgniter, jQuery, Google Charts*). I built, updated and performed SEO (*Google Analytics*) for 3 Wordpress websites. I re-branded the company, created presentations (*Powerpoint, Prezi*) and designed print collateral. I also managed relationships with print vendors. I reported to executives and fulfilled the design needs of Sales, Marketing, and Development simultaneously.

JForce Games, Concept & Production Artist

MAY 2008–AUGUST 2012

I painted digital concept and production art, and produced promotional videos for JForce Games. I worked with a development team of 5 on 3 games published through Xbox Live Indie Arcade.

ACU Optimist Newspaper, Editorial Cartoonist

NOVEMBER 2007–DECEMBER 2010

I wrote and drew comics to compliment editorial articles. I worked under tight bi-weekly deadlines, creating press-ready comics and ads.
